

REIM Training Solutions

Dear Parent,

As your school recently participated in REIM Internet Safety Workshops, we are offering all parents the opportunity to come to our 'Bring Your Own Devices Internet Safety Workshop' in Armagh Business Park on Monday 19th December...just in time for Christmas!

We are constantly being asked by parents after our Internet Safety Workshops "Will you come home with me and set up parental controls on my child's device?" We would love to be able to go home with each and every one of you, but unfortunately that's not possible. This event is our way of trying to reach at least some of you!

We are inviting all parents to come along so we can help set up controls on your children's devices and our experts will give you some helpful tips and hints to keep their children safe online while they work!

We would love you to come along and join us. We are charging a £10.00 entry fee with all proceeds going to Simon Community NI.

 REIM Training Solutions Ltd

Do you need help setting up Parental Controls?
Let us help...

Bring Your Own Device Workshop - Mon 19th December
5pm—8pm, Armagh Business Park
£10.00 entry fee - All proceeds going to Simon Community NI
